

Bioclimatic **BioPersa**

Our new bioclimatic pergola **Bio-Persa** is the ideal solution for the creation of an **impressive** outdoor space. Utilizing fully the features of the bioclimatic models Futura & Persa, we created a new product designed to be **highly aesthetic, extra sturdy**, with an emphasis on detail.

A **fully retractable system** that offers the opportunity to take moments of relaxation throughout the day, taking advantage of the weather conditions, creating that way the desired microclimate.

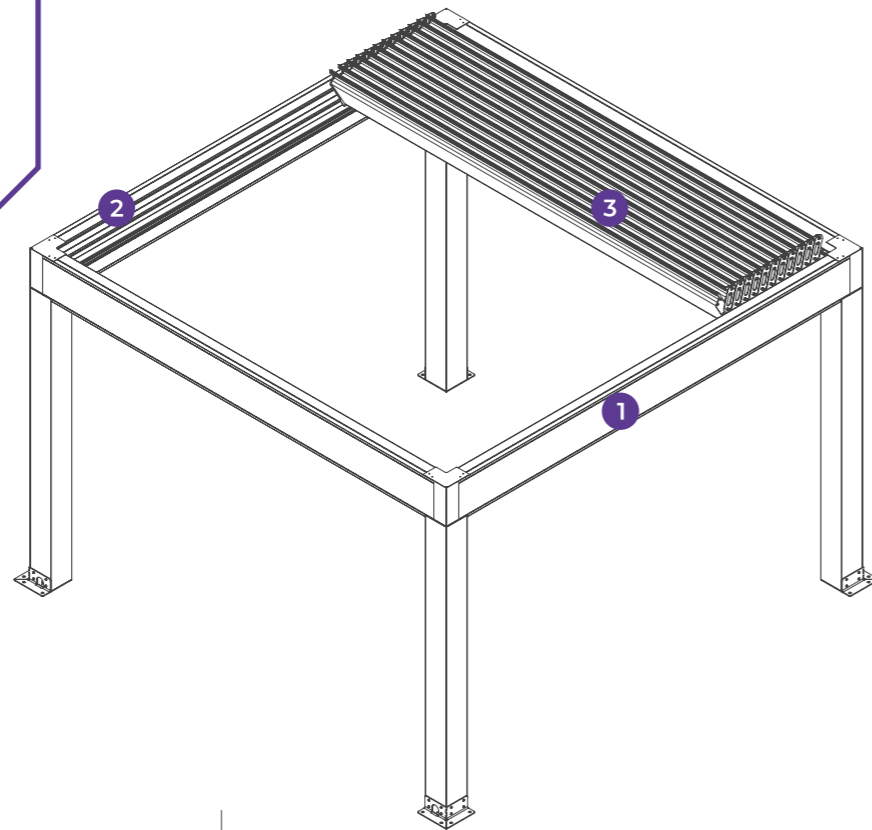

Bioclimatic BioPersa
